DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-47 (part), drawn to Quinoline.

Group II, claim(s) 1-47 (part), drawn to Quinazolines.

Group III, claim(s) 1-3(part), 48-52(part), drawn to Benzotriazines.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each group has a special technical feature as seen in the different heterocycle core present. Group I has a core with one N heteroatom in the heterocycle, Group II has a core with 2 N heteroatoms in the heterocycle, and Group III has a core with three N heteroatoms in the heterocycle. This portion of the molecule is required to distinguish from the prior art, since if not present, such compounds would be old.

A telephone call was made to Stephen Bent on 2/21/02 to request an oral election to the above restriction requirement, but did not result in an election being made. A written restriction was requested.

Art Unit: 1624

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark L. Berch whose telephone number is 703-308-4718. The examiner can normally be reached on M-F 7:15 - 3:45.
